This oral history originates with the Committee on History of Law in California. A primary objective of the Committee on History of Law in California is to foster the preservation and study of California's legal history. The Committee accordingly desires to make the tapes and transcripts in the oral history series available to interested scholars and students. The Grodin transcript and videotape are available for research and other permitted uses. Copies have been deposited with the library of Hastings College of the Law and the Archives of the State Bar of California, at its San Francisco office.
